

URBAN AUTO HUB // Weekly Trend Plan + Shooting Scripts · 31 Ogos — 6 September 2026

Isnin–Ahad · 7 posts · 44 shots · dealer stock promotion for facebook.com/UrbanAutoHubMY · on-camera: Nev · real footage only

Hook ≤2s

Price overlay + "anggaran"

Caption ends question + WhatsApp

Clean exports, no watermark

Vertical 9:16, burned-in BM captions

No AI reels

No accusations, ever

⚠ **SCRAPE FAILED — read this before you trust the trend section.** The Claude in Chrome extension was **unreachable for this run** (three attempts; `list_connected_browsers` returned an empty list). That means **no TikTok scan and no YouTube scan happened this week** — no `kereta recond`, `beli kereta recond 2026` or `kereta recond viral` search, no like counts, no upload dates, and **no new creator found on-platform**. The findings below come from **Malaysian car-market news via web search only**, which is a weaker signal for format trends. Anything about hook style, edit style or what is working on TikTok this week is marked **judgement** and should be treated as a guess until next week's scan confirms it. **Fix before next Monday:** open Chrome, sign the Claude side panel into the same account, and leave it running.

ROLE BOUNDARY — read before every shoot. Talyx is the agency. We do not own stock, hold documents, inspect, grade, price or sell. Nev's verbs are **ASK · BRING · SHOW YOU WHAT TO ASK** — never OWN, INSPECT, PRICE or SELL. Any video involving documents or inspection must have the **dealer on camera doing the showing**. Identity line, once per video: `"Kami bantu dealer promote kereta ni."`

What I found this week

- 1. New car prices are set to rise 10–30% from 2026 — and it is not a new tax.** The excise duty base (Open Market Value) starts including marketing, profit and admin costs, so the same car carries more duty. The same report notes used cars become the more attractive option as a result. This is the strongest genuinely-new story for a recond audience this week.
Carlist.my Insights, "Harga Kereta Naik 2026: Apa Maksud Excise Duty Baru untuk Anda?" — carlist.my/news/harga-kereta-naik-2026-apa-maksud-excise-duty-baru-untuk-anda-145039 · example given in the article: Myvi RM60,000 → RM66,000+ · read 24 Ogos 2026
- 2. Merdeka-season car campaigns are running nationally, including Kota Kinabalu.** Mercedes-Benz Certified Pre-Owned from RM138,000 at the Hap Seng Star "Merdeka Salebration"; Volvo ran a dated 48-hour Merdeka deal with Kota Kinabalu among the participating dealerships. The mechanic being copied everywhere is a **named season plus a real date** — not a countdown and not fake scarcity.
Carlist.my Auto News, 20 Ogos 2026 (Hap Seng Star) · yskhongdriving.com, 5 Ogos 2026 (Volvo, 15–16 Ogos, KK listed) · read 24 Ogos 2026
- 3. The used-car market is being described as stable, carried by value-conscious buyers.** Nothing dramatic to ride, but it supports the week's posture: explain value calmly rather than manufacture urgency.
The Star Business, "Used car market stable on value-conscious buyers", 29 June 2026 · read 24 Ogos 2026

4. **judgement** **No format data this week.** With the TikTok and YouTube scan down, the hook, twist and CTA picks below are carried over from the **last verified scan (19 Ogos 2026)** plus the Playbook. Treat the pattern section as untested, and re-run a full scan first thing next Monday.

Local context for the placeholders: the median car price listed in Kota Kinabalu is around RM55,000 across roughly 1,384 listings (Mudah.my, Kota Kinabalu, seen 24 Ogos 2026). Useful for sanity-checking the dealer's figures — **never for filling one in**. Every price in this plan stays a blank until Gavril has the real number in writing.

♪ SENYAP = silent beat **LOCKED** must be exact **SAY IT YOUR WAY** intent only

Dua benda kereta ni buat untuk jalan Sabah — bukan untuk showroom

Hook **#3 Bold claim**Twist **Good-news-then-flaw**CTA **Connect**Style **Industry value + spectacle**

ROLE BOUNDARY. Nev demonstrates **nothing** he has not been shown. The **dealer** opens the car, operates the feature and states the price. Nev rides, watches, asks. He never says "saya dah check", never says "stock kami", never gives a figure from his own mouth — he repeats the dealer's figure and credits him. If the dealer cannot be there, **postpone the shoot**; do not shoot it solo.

What this video has to do. Repeat the page's fastest-ever recipe: two **real** features tied to **Sabah roads**, nothing generic. Merdeka Monday is a day off — people are on their phones and in the mood to look at cars. Success is a WhatsApp enquiry and a watch-through past 45s, not a like.

BEFORE YOU SHOOT

- Ask the dealer the day before which **one** unit he wants pushed on Merdeka day, and book him for 90 minutes on camera. He drives, he talks.
- Get in writing: model, year, mileage, grade, price, anggaran monthly, and the exact spelling of his business name. Off his documents, not memory.
- Confirm the unit is **not sold** on the morning of the shoot. Ask again before you post.
- Agree the **two features** with him beforehand and make sure both are demonstrable on camera. No feature that only exists on the spec sheet.
- Agree the **one honest downside** he is willing to say out loud. If he will not name one, the twist is gone and the video is just an advert — pick another dealer or another day.
- Scout the road stretch: one rough or steep piece of Sabah road you can legally film on, 10 minutes from the showroom. Do not go hunting on the day.
- Check insurance and that the dealer is happy to drive with a camera mounted.

GEAR & SETUP

- Osmo Pocket 3, 9:16, 4K/30, ND filter if it is midday
- Wireless mic on the **dealer** — he carries most of the words
- Second mic or the Osmo's own mic on Nev for the pieces to camera
- Suction/clamp mount for the dash shot, tested before the dealer gets in
- Microfibre cloth — Merdeka morning light shows every fingerprint on glass and screens
- Shoot 8–10am. Midday KK sun blows out the highlights and the interior goes black

SHOT-BY-SHOT

SHOT 1 0:00 – 0:03 The claim, before the car

FRAMING	MCU on Nev, chest up, car soft and out of focus behind his shoulder. He fills the top third; the car is a shape, not a subject yet.
CAMERA MOVE	Static , lens at chin height, about 80cm from him. Do not move at all — the line does the work, and any drift in the first second reads as amateur.
ACTION	Nev is already mid-breath when the frame starts. He says the claim and does not smile at the end of it.
EXPRESSION	Certain, slightly hard. He is stating a fact he expects to be argued with. Not friendly yet — warmth comes later in the video.
DIALOGUE	NEV SAY IT YOUR WAY "Feature ni orang panggil luxury. Kat Sabah, ini keperluan. Saya tunjuk dua benda."
AUDIO	Music in on the first frame , mid-energy, no build-up. Merdeka week — pick something warm rather than aggressive.
ON-SCREEN TEXT	BUKAN LUXURY. KEPERLUAN. centred, upper third, white on a soft dark bar. Out by 0:03.
EDIT NOTE	This is frame 1 of the whole video — no logo sting, no intro . Cut out on the last syllable of "dua benda", not after it.

SHOT 2

0:03 — 0:12 The dealer opens the car

WS - dealer opens, Nev steps back

FRAMING

Wide, whole car in frame, both men visible. Nev is deliberately a **step behind** the dealer — the geometry says whose car this is.

CAMERA MOVE

Push in 25–30cm across the shot, ending as the door swings open. Stop the push the moment the door is fully open; do not keep creeping.

ACTION

The dealer unlocks and opens the door. Nev does not touch the handle, the door or the key at any point.

EXPRESSION

Dealer: at home, unhurried, this is his floor. Nev: interested guest, hands loosely together, watching the dealer rather than the camera.

DIALOGUE

NEV **LOCKED**

"Kami bantu dealer promote kereta ni."

NEV **SAY IT YOUR WAY**

"Unit ni dari dealer partner kami. Bos dia yang tunjuk, saya yang tanya."

DEALER **SAY IT YOUR WAY**

Names the model and year in his own words.

AUDIO

Music drops **under** for the identity line so the words are clean. Keep the real door and lock sound — do not let music cover it.

ON-SCREEN TEXT

Dealer partner: [name] lower left, small, holds 4 seconds.

EDIT NOTE

Cut on the door reaching full open. **Do not cut away from the identity line** — it must be heard on Nev's face, once, and never repeated later in the video.

Dash mount - road + control in one frame

FRAMING

Camera clamped on the dash, angled so you get **the road through the windshield and the feature itself in the same frame**. Dealer's hands and shoulder in the right third. Never his phone, never the plate of the car in front.

CAMERA MOVE

Mounted, static. Set it, check it, then leave it alone for the whole take. Nothing handheld while the car is moving.

ACTION

The dealer drives and uses the feature on the actual road condition it exists for. It must visibly do something — if the camera cannot see it work, it is the wrong feature.

EXPRESSION

Dealer: matter-of-fact, eyes on the road, explaining while driving the way he would to a friend. **No presenting voice.**

DIALOGUE

DEALER **SAY IT YOUR WAY**

Explains what the feature does and on which stretch of road he notices it.

NEV **SAY IT YOUR WAY**

One short question from off-camera, not a speech.

AUDIO

Music **under**, low. Keep road noise and the real sound of the feature. If the feature makes a sound, duck the music for it.

ON-SCREEN TEXT

FEATURE 1 plus five words naming it, lower third, above the safe line.

EDIT NOTE

Hold this one long. **Do not chop it into three** — the whole point is that the viewer sees it happen continuously and believes it.

SHOT 4

0:26 — 0:38 Feature 2, tight enough to believe

FRAMING

ECU. The feature fills the frame edge to edge. **Dealer's hand only** — no faces, no badge, no branding.

CAMERA MOVE

Locked off on the small tripod, about 25cm away. If you have to hold it, brace against the body of the car and hold your breath for the take.

ACTION

The dealer operates the feature once, slowly, all the way through its travel. One clean action, no fumbling, reshoot rather than keep a messy one.

EXPRESSION

No faces in frame, so the **hands carry it** — deliberate, unhurried, the way you handle something you know well.

AUDIO

SILENCE. Music out for the whole shot. You want the mechanical sound of the thing and nothing else. This is the spectacle beat.

ON-SCREEN TEXT

No text. Nothing should compete with the movement here.

EDIT NOTE

Come in hard on the first movement. Hold two beats after it finishes before cutting — the pause is what makes it feel expensive.

FRAMING

MS, Nev walking beside the parked car with **the actual road surface visible** in the bottom of frame. The road is the co-star; frame for it.

CAMERA MOVE

Handheld follow, walking with him, gimbal doing the work. Keep him on the same side of frame the whole way — do not let him cross.

ACTION

Nev walks a few steps, stops, and points down at the road rather than at the car.

EXPRESSION

Warmer now, a bit amused. This is the "you already know this if you drive here" beat — he is on the viewer's side.

DIALOGUE

NEV **SAY IT YOUR WAY**

"Jalan macam ni la yang kita lalu tiap hari. Bukan jalan showroom."

NEV **SAY IT YOUR WAY**

Ties feature 1 and 2 back to this exact road in one sentence each.

AUDIO

Music back up, but **not to full**. Real footsteps and road ambience stay audible.

ON-SCREEN TEXT

One short line naming the road type, lower third, above the safe line. Keep it under six words.

EDIT NOTE

Cut on the point-down gesture. If the walk is wobbly at the start, trim the first second rather than stabilise it further.

SHOT 6

0:52 — 1:04 The honest downside, from the dealer

FRAMING

MS two-shot beside the car, both men from the waist up, dealer slightly favoured.

CAMERA MOVE

Static, chest height, locked. No move at all on this beat — movement here reads as spin.

ACTION

Nev asks the flaw question. The dealer answers it. Nev nods and says nothing over him.

EXPRESSION

Dealer: calm, not defensive, not apologising. Nev: quiet, listening, **resisting the urge to rescue him**. The silence after the answer is the point.

DIALOGUE

NEV **SAY IT YOUR WAY**

"Apa satu benda pasal unit ni yang bos rasa orang patut tahu awal-awal?"

DEALER **SAY IT YOUR WAY**

Names one real, specific downside in his own words.

NEV **SAY IT YOUR WAY**

"Bagus. Itu yang kami nak korang dengar."

AUDIO

Music **fades down under the answer** and stays low. This one is a fade, not the hard cut — the hard music cut belongs to Wednesday this week, do not spend it here.

ON-SCREEN TEXT

SATU BENDA KORANG PATUT TAHU, lower third, in before the dealer speaks.

EDIT NOTE

Leave a full second of silence after the dealer finishes before you cut. **Do not trim that pause** — it is what makes the honesty land.

SHOT 7

1:04 — 1:12 Price, credit, and the closing line

MCU · to lens, price card on screen

FRAMING

MCU on Nev, to lens, car edge just visible so the viewer knows he has not moved.

CAMERA MOVE

Push in 10cm across the whole shot — barely perceptible, stop when he says the price.

ACTION

Nev states the dealer's price, credits the dealer, gives the closing line.

EXPRESSION

Direct, warm, unhurried. He is handing over information, not closing a sale.

DIALOGUE

NEV **LOCKED**

"Harga dia RM__. Anggaran bulanan RM__."

NEV **LOCKED**

"Unit ni dari dealer partner kami, [name]."

NEV **SAY IT YOUR WAY**

"Nak tengok? WhatsApp kami, kami arrange dengan dealer terus."

NEV **LOCKED**

"Tanya dulu, baru beli." **[PROPOSED]**

AUDIO

Music out clean on the last word of the closing line. **No tail, no swell.**

ON-SCREEN TEXT

RM__ and **~RM__/bln (anggaran)** stacked, above the safe line. The word **anggaran** must be visible *and* spoken.

EDIT NOTE

Cut to black on the last syllable. Do not hold on his face and do not add an end card.

CAPTION — READY TO PASTE

Dua benda kereta ni buat untuk jalan Sabah — bos dealer sendiri yang tunjuk.

Satu benda kurang pun dia cakap depan kamera.

Kami cuma tanya.

Dealer partner: [name] · RM__ · ~RM__/bln (anggaran)

Feature mana yang korang rasa paling penting kat jalan Sabah?

WhatsApp +60 16-879 8757

WHY THIS VIDEO, THIS WEEK

- Repeats the page's **fastest-ever recipe** — 2 real features tied to Sabah roads (LX600, 526 views in 13h)
- Merdeka Monday is a public holiday: phone time is up and the feed is soft
- The dealer names the downside, so trust is **shown** and the role boundary stays clean

- Connect CTA feeds the weakest KPI on the dashboard — WhatsApp conversations, baseline 2

Lines that must land exactly.

- "Kami bantu dealer promote kereta ni." — once, SHOT 2
- "Harga dia RM____. Anggaran bulanan RM____." — **anggaran** said aloud AND on screen
- "Unit ni dari dealer partner kami, [name]."
- "Tanya dulu, baru beli." [PROPOSED — confirm with Gavril]

Everything marked **SAY IT YOUR WAY** is intent, not wording — Nev paraphrases it in his own mouth. Reading it verbatim is what makes it sound stiff.

Export. Vertical 9:16, ~70s. **Do not trim to 30s** — longer wins on this page. Burned-in BM captions at y=0.72. Clean master, no watermark, native upload to Facebook. Post by 10am on the holiday.

Stock Drop — 1 September, poster carousel

Hook #1 Price shock

Twist Price reveal delay on card 1

CTA Choose

Style Stock

ROLE BOUNDARY. Every card carries **Dealer partner: [name]**. The caption says **"dari dealer partner kami"** — never "stock kami". **Nev does not appear in this post at all.** No card claims any unit has been inspected, graded or certified by us.

What this video has to do. Two jobs. Give the page a live, **dated** shop window in its highest-attention slot. And harvest comments cheaply — "comment nombor" is the lowest-effort comment ask we have, and comments are the weakest number on the dashboard (4 in 28 days).

BEFORE YOU SHOOT

- Final unit list from the dealer **Monday night**. Anything sold comes off — never post a sold unit.
- Per unit, in writing: model, year, mileage, grade, price, anggaran monthly. Off his documents, not memory.
- Ask which units he actually wants pushed this week. Do not guess and do not pad the carousel to six if he only has four.
- Shoot or collect all photos in **one session at the same time of day** — mixed light across cards makes the set look scraped.
- Check every plate is either clean or masked, and no other customer is in shot.
- Confirm the date on card 1 is the **posting** date, not the shooting date.

GEAR & SETUP

- Osmo Pocket 3 or phone — stills only, 4:5 crop
- Shoot at 8–9am or after 5pm; hard midday sun kills paint detail
- Tripod at **bonnet height** for every unit so the set is consistent
- Text overlays built in one template so card 2 to card 5 are identical in layout
- No music, no motion — this is a poster set, every fact must survive with sound off

CARD 1 Poster Dated poster frame, price first

Poster · price burned into frame 1

FRAMING	Front three-quarter of the lead unit, bonnet height, car occupying the lower two thirds. Top third is deliberately empty for the poster text.
CAMERA MOVE	Tripod, locked. Camera at bonnet height, about 3m back, level — do not shoot down at the car, it makes it look small and cheap.
ACTION	Nothing moves. This is a still. Take five frames and pick the one with the cleanest reflection on the bonnet.
EXPRESSION	The tone is confident and plain, like a shop window, not a sale banner. No starbursts, no "WOW", no red explosion graphics.
AUDIO	No audio — this is a still post. Every fact on the card must survive with sound off, because most of the feed is muted anyway.
ON-SCREEN TEXT	STOCK DROP · 1 SEPT 2026 top. RM ____ large, centre. ~RM ____/b1n (anggaran) underneath, smaller. Dealer partner: [name] bottom left.
EDIT NOTE	Price is the biggest element on the card , bigger than the model name. Do not centre the text over the car's face — keep the grille readable.

Side profile · spec block below

FRAMING

Clean side profile, whole car, small margin at each end. Same distance and height as every other unit card.

CAMERA MOVE

Tripod, locked, bonnet height, square on to the car. Do not drift closer for the "nicer" units — consistency is what makes the set read as a catalogue.

ACTION

Still frame. Wipe the paint and the glass before shooting; dust reads as neglect on a second unit.

EXPRESSION

Neutral and factual. The card should feel like a listing you can trust, not an ad you have to decode.

AUDIO

No audio. If someone sees only this card with sound off, they must still get model, year, mileage, grade, price and the dealer name.

ON-SCREEN TEXT

Model + year top. Mileage and grade in the spec block. **RM ___** and **~RM ___/bln (anggaran)** bottom. **Dealer partner: [name]** bottom left.

EDIT NOTE

Same font sizes and same positions as cards 3–5. Number the card **1** in the top corner so the comment CTA works.

CARD 3

Unit 2 Unit card, standard layout

Side profile - identical layout

FRAMING

Identical framing to card 2 — same distance, same height, same margins. Differences between cards should be the cars, never the photography.

CAMERA MOVE

Tripod, locked, bonnet height, square on. Move the car, not the camera, between units if you can.

ACTION

Still frame. Steering wheel straight and wheels pointed straight on every unit — crooked wheels are the single most common thing that makes a stock set look sloppy.

EXPRESSION

Same neutral, factual tone as card 2. The set should feel like one hand made it.

AUDIO

No audio. Same rule: every fact readable with sound off.

ON-SCREEN TEXT

Same block, same positions. **Dealer partner: [name]** present on this card too — every card, no exceptions.

EDIT NOTE

Number the card **2**. Check the mileage and grade against the written list before export, not after posting.

CARD 4

Unit 3 Unit card, standard layout

Side profile - identical layout

FRAMING

Identical to cards 2 and 3. If a unit is a different body shape, keep the same camera distance and let it fill more or less of the frame naturally.

CAMERA MOVE

Tripod, locked, bonnet height, square on. Check the horizon is level on every frame before you move on.

ACTION

Still frame. Close all doors, retract mirrors on nothing, and remove the paper floor mats if they are in shot.

EXPRESSION

Plain and consistent. Do not "hero" one unit with a different angle — save that for its own video.

AUDIO

No audio.

ON-SCREEN TEXT

Same block. Number the card **3**.

EDIT NOTE

Export at the same resolution and crop as the rest. Mixed crops break the swipe.

CARD 5

Unit 4 Unit card, standard layout

FRAMING

Identical to cards 2–4. Last unit card, so put the strongest-value unit here — it is the card people land on before the CTA.

CAMERA MOVE

Tripod, locked, bonnet height, square on.

ACTION

Still frame. Final check that this unit is still unsold before export.

EXPRESSION

Same steady tone. Nothing on the last unit card should feel like a closing push.

AUDIO

No audio.

ON-SCREEN TEXT

Same block. Number the card **4**.

EDIT NOTE

If the dealer only gave you three units, **delete this card** rather than repeat a unit. A short honest set beats a padded one.

CARD 6

CTA The ask, and the closing line

FRAMING

Text-only card on the page's dark background. No car. Big type, generous margins, nothing to read twice.

CAMERA MOVE

No camera — built card. Same 4:5 canvas and same margins as the photo cards so the swipe does not jump.

ACTION

Nothing moves. Built in the template, exported flat.

EXPRESSION

Friendly and low pressure. The ask is one small action, so it should look like one small action.

AUDIO

No audio. The card carries the whole ask visually.

ON-SCREEN TEXT

Nak tengok yang mana? Comment nombor. centred. **WhatsApp +60 16-879 8757** below. **"Tanya dulu, baru beli."** at the bottom.

EDIT NOTE

Keep the WhatsApp number selectable-size — people screenshot this card. Nothing else on the card competes with the number.

CAPTION — READY TO PASTE

STOCK DROP · 1 September

4 unit dari dealer partner kami minggu ni. Harga dan anggaran bulanan ada atas setiap kad — takde harga rahsia.

WHY THIS VIDEO, THIS WEEK

- Tuesday carousel is the page's fixed pinned slot — the header should never be empty or stale

Dealer partner: [name]

Nombor berapa korang nak kami tunjuk penuh minggu depan? Comment nombor WhatsApp +60 16-879 8757

- Poster-frame stock posts outperformed walkarounds in the last verified scan (G-Mart Group, 18.2K likes, seen 19 Ogos 2026)
- "Comment nombor" is the cheapest comment ask we have, and comments are the weakest KPI (4 / 28 days)
- A dated card proves the page is active to anyone landing on it cold

Lines that must land exactly.

- **Dealer partner: [name]** — on **every** card, not just the first
- **"dari dealer partner kami"** in the caption — never "stock kami"
- **RM___** and **~RM___/bln (anggaran)** — the word **anggaran** on every unit card
- **"Tanya dulu, baru beli."** [PROPOSED — confirm with Gavril] on card 6

Everything marked **SAY IT YOUR WAY** is intent, not wording — Nev paraphrases it in his own mouth. Reading it verbatim is what makes it sound stiff.

Export. Carousel 4:5. Post Tuesday morning, then **unpin last week's and pin this one**. If any unit sells during the week, edit the caption to say so — do not leave a sold unit live.

Meter, buku servis, dan satu benda ramai lupa tanya

Hook #2 Unanswered question

Twist Music cut to silence

CTA Save

Style Transparency

ROLE BOUNDARY. The **dealer's** thumb covers the meter and the **dealer's** hand lifts it. The **dealer** holds and turns the service book. Nev does not touch the meter, the book or the key. Nev never says the mileage is verified — he says the dealer showed it and that the viewer should ask to see it too. If Nev ends up holding any document, the take is unusable: reshoot.

What this video has to do. Turn the page's trust problem into one savable video. A buyer should finish it knowing exactly which two documents to ask for and what to cross-check between them. Success is a **save** and a comment saying "baru tahu", not a like.

BEFORE YOU SHOOT

- Ask the dealer **the day before**: will he be filmed showing the meter and the service book, on one specific unit. Yes to both or no shoot.
- Ask him to pick a unit where the book is **honest and readable**, including any gap in the service history. A book with a gap he can explain is better content than a perfect one.
- Confirm the **meter reading and the book match** before you roll. If they do not, pick another unit — do not film it and explain the gap on camera.
- Cover or mask any previous owner name, address or phone number in the book. Check every page you intend to show.
- Agree the third question with him beforehand so his answer is real rather than improvised.
- Price + anggaran monthly in writing, and the exact spelling of his business name.

GEAR & SETUP

- Osmo Pocket 3, 9:16, 4K/30
- Wireless mic on the **dealer**
- Small tripod for the locked-off meter and top-down book shots
- Microfibre cloth for the meter glass — fingerprints are very visible in ECU
- A plain card or cloth to mask personal data in the book
- Interior shots: park in shade or open both doors, otherwise the dash goes to black

SHOT-BY-SHOT

SHOT 1 0:00 – 0:04 A thumb over the number

ECU · meter, dealer thumb covering

FRAMING	ECU on the instrument cluster. The mileage window fills the middle of frame and the dealer's thumb sits over the number . Nothing else in shot — no face, no badge, no interior.
CAMERA MOVE	Locked off on the small tripod through the open door, about 30cm from the cluster. Zero movement.
ACTION	The ignition is on, the cluster is lit, the thumb is already in place when the frame starts. Nothing else happens for four seconds.
EXPRESSION	No face in frame, so the stillness carries it. The hand should look patient, not like it is hiding something — steady, flat on the glass.
AUDIO	SILENCE. No music at all. Faint interior hum only. The silence is what makes people wait for the number.
ON-SCREEN TEXT	Berapa mileage sebenar? small, top of frame, no box, no animation.
EDIT NOTE	Hard in on the first frame. Four full seconds — it feels too long in the edit and is exactly right on the feed. Do not shorten it.

SHOT 2

0:04 — 0:14 Nev asks, and says who we are

FRAMING

MS two-shot standing at the open driver's door, both men from the waist up, the lit cluster just visible between them.

CAMERA MOVE

Static, chest height, locked on the tripod. If you must move, one very slow 10cm push and no more.

ACTION

Nev asks the dealer to lift his thumb. Nev keeps both hands visibly off the car.

EXPRESSION

Nev: light, a bit playful — he is doing a small piece of theatre and both men know it. Dealer: relaxed, playing along, nothing to hide.

DIALOGUE

NEV **LOCKED**

"Kami bantu dealer promote kereta ni."

NEV **SAY IT YOUR WAY**

"Jadi benda pertama saya minta bos tunjuk — meter. Boleh angkat ibu jari?"

AUDIO

Music fades **in soft** under the second line, low, no beat yet. It exists only so it can be taken away in the next shot.

ON-SCREEN TEXT

Dealer partner: [name] lower left, holds four seconds.

EDIT NOTE

Do not cut during the identity line. It is said once here and never again in this video. Cut on the dealer's hand starting to move.

SHOT 3

0:14 — 0:26 The thumb lifts — music dies

ECU · reveal, hard music cut

FRAMING

Back to the ECU on the cluster, same position as SHOT 1 so the cut is invisible. The thumb lifts and the number is fully readable.

CAMERA MOVE

Push in 8–10cm only, starting on the lift and stopping the moment the number is clear. Any further and the number goes soft.

ACTION

The thumb lifts away cleanly. Then the dealer says the number out loud while it is on screen.

EXPRESSION

No faces. The reveal is the emotion. Let the number sit there long enough to be read twice.

DIALOGUE

DEALER **SAY IT YOUR WAY**

Reads the mileage out loud, exactly as it appears on the cluster.

AUDIO

MUSIC HARD-CUTS TO SILENCE on the frame the thumb leaves the glass. Cut it dead — do not fade. This is the page's signature twist and this week it is spent here. Music stays out for the rest of this shot.

ON-SCREEN TEXT

MINTA TENGOK METER. SETIAP KALI. lower third, in one second after the reveal.

EDIT NOTE

The music cut and the thumb lift must be on the **same frame**. Check it frame by frame; one frame late and the whole effect dies. Hold three seconds on the number before cutting.

SHOT 4

0:26 — 0:42 The service book, page by page

ECU top-down - book, dealer hands

FRAMING

Top-down, the open service book filling the frame edge to edge.
Dealer's hands only. No faces, no car.

CAMERA MOVE

Top-down, locked. Osmo on the tripod at the edge of the bonnet or a table, pointing straight down. Do not let the gimbal re-level mid-take.

ACTION

The dealer turns three pages slowly and taps the stamps and dates as he goes. One continuous take if possible.

EXPRESSION

No faces, so the hands do it again: **unhurried and specific**, the way someone handles a document they are used to defending.

DIALOGUE

DEALER **SAY IT YOUR WAY**

Explains what the stamps and dates mean, and what a gap would mean, in plain words.

AUDIO

Music stays **out**. Paper and the dealer's voice only. Bringing music back here would undo the silence you just bought.

ON-SCREEN TEXT

BUKU SERVIS small, top-left. Add a short label over each thing he taps, one at a time.

EDIT NOTE

Do not speed-ramp the page turns. If the take is long, cut on a page turn rather than mid-sentence.

SHOT 5

0:42 — 0:54 Cross-check: meter against book

Split · meter vs book, side by side

FRAMING

Split screen built in the edit: the meter frame on the left, the book page on the right. Both numbers legible at phone size — if you cannot read them on your own phone, they are too small.

CAMERA MOVE

Static on both source shots. Shoot the book page as a separate locked top-down insert so the two halves sit still next to each other.

ACTION

Nothing moves in frame. The comparison is the action. The dealer says the two numbers over the top.

EXPRESSION

Tone is **plain and unexcited**. This is the most useful moment in the video and it should feel ordinary, like something anyone can do.

DIALOGUE

NEV **SAY IT YOUR WAY**

"Ini yang korang kena buat sendiri. Tengok meter, tengok buku, banding."

AUDIO

Music comes back **soft** here, low and simple. It should feel like the video breathing out after the silence.

ON-SCREEN TEXT

SAMA TAK NOMBOR DIA? centred, above the safe line.

Highlight both numbers with a thin amber box.

EDIT NOTE

Hold five seconds minimum. This is the frame people screenshot, so give them time to do it.

SHOT 6

0:54 — 1:06 The thing people forget to ask

MS - two-shot, third question

FRAMING

MS two-shot back at the car, same setup as SHOT 2 so the video feels like one visit.

CAMERA MOVE

Static, chest height, locked. No movement.

ACTION

Nev asks the third question — the one buyers forget. The dealer answers it fully.

EXPRESSION

Nev: curious, on the buyer's side, not quizzing. Dealer: straightforward, giving a real answer rather than a safe one.

DIALOGUE

NEV **SAY IT YOUR WAY**

"Satu lagi — benda apa yang orang selalu lupa tanya masa nak beli recond?"

DEALER **SAY IT YOUR WAY**

Answers with one specific, checkable thing.

NEV **SAY IT YOUR WAY**

"Tu yang korang kena tanya. Bukan kat kami — kat dealer."

AUDIO

Music stays low under the whole exchange. Never let it rise over the dealer's answer.

ON-SCREEN TEXT

SOALAN KE-3 lower third, in as Nev asks.

EDIT NOTE

Leave a beat of silence after the dealer's answer before Nev's last line. Do not overlap them.

SHOT 7

1:06 – 1:15 Save it, and the closing line

FRAMING

MCU on Nev, to lens, car soft behind. First time in the video he speaks straight down the barrel.

CAMERA MOVE

Push in 10cm across the shot. Barely visible, but it lifts the ending.

ACTION

Nev gives the save CTA, credits the dealer, closes.

EXPRESSION

Direct, warm, unhurried. He is doing the viewer a favour, not asking for one.

DIALOGUE

NEV **SAY IT YOUR WAY**

"Simpan video ni sebelum korang pergi tengok kereta. Meter, buku, satu soalan. Itu je."

NEV **LOCKED**

"Unit ni dari dealer partner kami, [name]."

NEV **LOCKED**

"Tanya dulu, baru beli." **[PROPOSED]**

AUDIO

Music out clean on the last word. No tail.

ON-SCREEN TEXT

SIMPAN VIDEO NI above the safe line, then the closing line under it.

EDIT NOTE

Cut to black on the last syllable. Do not hold on his face.

CAPTION — READY TO PASTE

Meter, buku servis, dan satu soalan yang ramai lupa tanya.

Bos dealer yang tunjuk semua — kami cuma tanya depan korang.

Dealer partner: [name]

Korang pernah minta tengok buku servis sebelum beli?

WhatsApp +60 16-879 8757

WHY THIS VIDEO, THIS WEEK

- Transparency is the page's trust engine, and it is **shown by the dealer** so the role boundary stays clean
- This is the week's **music-cut twist** — the page's signature, spent once and spent well
- Save CTA suits education, and saves are the strongest organic distribution signal we can ask for
- Rotates away from last week's auction-sheet document so the format does not go stale

Lines that must land exactly.

- **"Kami bantu dealer promote kereta ni."** — once, SHOT 2
- **"Unit ni dari dealer partner kami, [name]."** — SHOT 7

- **Nev never touches the meter, the book or the key.** If he does, reshoot
- **"Tanya dulu, baru beli."** [PROPOSED — confirm with Gavril]

Everything marked **SAY IT YOUR WAY** is intent, not wording — Nev paraphrases it in his own mouth. Reading it verbatim is what makes it sound stiff.

Export. Vertical 9:16, ~75s. Burned-in BM captions at y=0.72. Check the music cut lands on the exact frame of the thumb lift before you export. Clean master, native upload.

Saya tanya orang KK: apa paling korang risau bila beli kereta recond?

Hook #10 Unexpected character

Twist Role reversal

CTA Question

Style Street / emotional

Experiment street vox-pop, ported from comedy & lifestyle

ROLE BOUNDARY. No stock, no dealer, no price, no car in this video. Nev asks a question and listens. He does not answer with authority, does not promise to check anyone's car, does not offer an opinion on any dealer or shop. He ends by handing the question to the comments, not by solving it.

What this video has to do. Two things the page badly needs. Comments — a question real people already have an answer to. And a human face that is not a car; the page's best-ever video was emotional, Malay, and had no car in it (1,000 views on 584 followers). This is the **Experiment** and the point is to learn whether street voices work here at all.

BEFORE YOU SHOOT

- **Consent, on camera, before every clip.** Nev says who he is and asks permission, and you keep that permission in the recording. Anyone who says no is deleted the same day.
- Get permission from the location too — a mall car park or a shophot row means asking the management first. Do not film on private property on the assumption it is fine.
- Prepare **one** question and do not vary it. Varying it makes the answers uncomparable and the edit messy.
- Plan for a low hit rate: budget an hour to get four usable answers. Most people will wave you off and that is normal.
- Decide in advance what you do if someone names a specific shop or person — **you do not use that clip.** No accusations, including ones that come out of a stranger's mouth.
- Bring a written one-line explanation of the page to show people who ask what this is for.

GEAR & SETUP

- Osmo Pocket 3, handheld, wrist strap on — you will be moving
- Wireless mic passed to the person answering, or held out by Nev; the built-in mic will not survive a car park
- Late afternoon, 4–6pm — softer light and people are not rushing
- Fully charged plus a spare battery; this is a long shoot for a short video
- Nothing on a tripod. A tripod in a car park makes people walk the other way

SHOT-BY-SHOT

SHOT 1 0:00 – 0:04 Cold open, mid-answer, a stranger

FRAMING	MS on the person answering, not on Nev. Frame is slightly off-centre and clearly handheld — it should look caught, not staged.
CAMERA MOVE	Handheld, held still. Elbows in, breathe out, let it be slightly imperfect. Do not stabilise this into looking corporate.
ACTION	The video starts in the middle of their sentence. No question audible, no setup, no title.
EXPRESSION	Whatever they actually feel. Do not direct them. The value is that they are not performing.
DIALOGUE	ORANG KK SAY IT YOUR WAY Their own words, mid-sentence. Pick the most surprising four seconds you recorded all day.
AUDIO	No music at all for the first four seconds. Street ambience only. The absence of music is what signals this is real.
ON-SCREEN TEXT	Burned-in caption of what they are saying, word for word, at the safe line. Nothing else on screen.
EDIT NOTE	Start on their voice, not on a frame of them silent. No intro, no logo. The unexpected face is the hook and anything before it wastes it.

SHOT 2

0:04 — 0:12 Nev explains what he is doing

FRAMING

MCU on Nev, walking, car park life visible behind him. Keep him left of centre so the background reads.

CAMERA MOVE

Handheld follow, walking backwards with him at a steady pace. Watch behind you — have someone spot you if the car park is live.

ACTION

Nev walks and talks to the lens, setting up the question in one sentence.

EXPRESSION

Casual, a bit self-aware, like he is doing something slightly silly and knows it. **Not a presenter voice.**

DIALOGUE

NEV **LOCKED**

"Kami bantu dealer promote kereta ni."

NEV **SAY IT YOUR WAY**

"Hari ni saya tak bawa kereta, tak bawa dealer. Saya cuma nak tanya orang KK satu soalan."

AUDIO

Light music fades in **under** him, low. Street sound stays present underneath.

ON-SCREEN TEXT

The question appears as text as he says it, centred, above the safe line.

EDIT NOTE

Cut on the end of the question. Do not let the walk continue past the point of the line.

SHOT 3

0:12 — 0:30 Two answers, cut together

MS x2 · two answers, straight cut

FRAMING

Two separate MS clips, each framed the same way as SHOT 1. Different backgrounds is fine and good — it proves you actually walked around.

CAMERA MOVE

Handheld, held still for both. Same distance each time so the cut between them feels like one conversation.

ACTION

Each person answers the same single question. Nev is off camera and stays quiet while they talk.

EXPRESSION

Let people be shy, funny or blunt. **Do not coach them into a better answer.** The awkward ones are usually the ones people comment on.

DIALOGUE

ORANG KK 1 **SAY IT YOUR WAY**

Their own words.

ORANG KK 2 **SAY IT YOUR WAY**

Their own words.

AUDIO

Music stays low and continuous across both clips so the straight cut does not jar. Keep each person's own ambience.

ON-SCREEN TEXT

Word-for-word captions for both. Add a small label if their answer needs context, but never a name unless they offered it.

EDIT NOTE

Straight cut between them, no transition. Trim each to its single best sentence — **eight seconds each maximum.**

SHOT 4

0:30 — 0:44 The answer that flips it

FRAMING

Tighter than the others — MCU. Going closer for this one person tells the viewer this is the answer that matters.

CAMERA MOVE

Push in 15–20cm, very slowly, starting after their first few words. Stop when they land the point.

ACTION

This person says something genuinely sharper than what Nev would have said. That is the reversal.

EXPRESSION

Nev, off camera, should be audibly a little surprised. A short real "ha, betul" is worth keeping.

DIALOGUE

ORANG KK **SAY IT YOUR WAY**

The strongest answer of the day, in full.

NEV **SAY IT YOUR WAY**

One short reaction from off camera. Do not talk over them.

AUDIO

Music **drops away under this answer** and comes back only at the end of it. A fade, not a hard cut — the hard cut belongs to Wednesday.

ON-SCREEN TEXT

DIA CAKAP LAGI BAGUS DARI KAMI lower third, in after they finish, not during.

EDIT NOTE

Give this the most screen time of any clip. Do not trim their pause — the pause before a good point is what makes it land.

SHOT 5

0:44 — 0:54 Nev turns it into something usable

MCU - to lens, ties it together

FRAMING

MCU on Nev, standing still now, same car park. The stillness after all the walking signals the video is about to land.

CAMERA MOVE

Static, chest height, braced against a pillar or a wall if you have one.

ACTION

Nev takes what the strangers said and turns it into one thing the viewer can actually do at a viewing.

EXPRESSION

Sincere and a little thoughtful. He is not wrapping up a bit — he actually took the answer on board.

DIALOGUE

NEV **SAY IT YOUR WAY**

"Semua orang risau benda yang sama. Jadi soalan tu, tanya dealer depan-depan. Bukan tanya kami."

NEV **SAY IT YOUR WAY**

"Kami cuma bawa korang jumpa dealer, dan tolong korang tahu nak tanya apa."

AUDIO

Music back up to a normal low level. Street noise stays — do not clean this into a studio.

ON-SCREEN TEXT

TANYA DEALER, BUKAN TANYA KAMI lower third.

EDIT NOTE

Cut tight. This beat should feel shorter than it wants to be.

SHOT 6

0:54 — 1:00 The question, handed over

FRAMING

MCU, to lens, tighter than SHOT 5.

CAMERA MOVE

Push in 10cm across the shot, stopping on the closing line.

ACTION

Nev asks the audience the same question he asked the strangers, then closes.

EXPRESSION

Open and genuinely curious. He is asking, not prompting.

DIALOGUE

NEV **SAY IT YOUR WAY**

"Korang pula. Apa paling korang risau bila nak beli recond?
Tulis kat bawah — saya baca semua."

NEV **LOCKED**

"Tanya dulu, baru beli." **[PROPOSED]**

AUDIO

Music out clean on the closing line. No tail.

ON-SCREEN TEXT

KORANG PALING RISAU APA? above the safe line, closing line
under it.

EDIT NOTE

Cut to black on the last syllable. **Then actually reply to every comment within the hour** — this video is worthless if the comments go unanswered.

CAPTION — READY TO PASTE

Saya tanya orang KK satu soalan je: apa paling korang risau bila beli kereta recond?
Jawapan orang keempat lagi bagus dari apa kami boleh cakap.
Takde kereta, takde harga, takde jualan dalam video ni — kami cuma dengar.

Korang pula, apa paling risau?
WhatsApp +60 16-879 8757

WHY THIS VIDEO, THIS WEEK

- 🎪 **Experiment day.** Street vox-pop is a comedy and lifestyle format, not a car format — ported here to see if real voices move this page
- It **displaces this week's comparison / comment-bait slot** (last week's Friday recond-vs-baru), and carries the comment-bait duty itself — the whole video is one question
- The page's best-ever post was emotional, Malay and had no car in it. This tests that finding on purpose rather than by accident
- Zero cost, zero dealer dependency, and no role-boundary risk — nothing is owned, inspected or priced
- **Result must be recorded in PLAYBOOK.md next week**, pass or fail. An experiment nobody scores is just a random video

Lines that must land exactly.

- "Kami bantu dealer promote kereta ni." — once, SHOT 2
- "Kami cuma bawa korang jumpa dealer." — the boundary phrasing, SHOT 5
- **No clip that names a shop, dealer or person is used.** Delete it on the day, not in the edit
- **Consent recorded on camera** for every face that appears
- "Tanya dulu, baru beli." [PROPOSED — confirm with Gavril]

Everything marked **SAY IT YOUR WAY** is intent, not wording — Nev paraphrases it in his own mouth. Reading it verbatim is what makes it sound stiff.

Export. Vertical 9:16, ~60s — shorter than the rest of the week on purpose, because the pace is faster. Burned-in BM captions for every voice, y=0.72. Clean master, native upload. Post after 6pm.

Harga kereta baru naik 2026 — apa maksudnya kalau korang tengah cari recond

Hook #6 Mistake framing

Twist Expectation flip

CTA Save

Style Industry value

ROLE BOUNDARY. Nev explains a **published market change**, not a car. He does not value anyone's car, does not predict what any specific unit will be worth, and does not tell anyone to buy now. He names the source out loud and on screen. No dealer is needed on camera because no document, inspection or price of ours appears — and no unit price is quoted.

What this video has to do. Be genuinely useful about something the audience has already half-heard and half-understood. A buyer should finish knowing what changed, what it does **not** mean, and three things to ask a dealer. Success is a save and a share, and a comment from someone who was about to make a decision on a rumour.

BEFORE YOU SHOOT

- Read the source article yourself before shooting: **Carlist.my, "Harga Kereta Naik 2026: Apa Maksud Excise Duty Baru untuk Anda?"** Have it open on the phone you film in SHOT 2.
- Write the source name on the on-screen credit **before** the shoot, not in the edit. If it is not on screen, the line does not get said.
- Say **"ada laporan kata"**, never "confirm". A projected range is not a fact and must not be delivered as one.
- **Do not quote any unit price in this video.** No RM figures from our own stock at all — the only numbers are the percentage range from the article.
- Prepare the three questions in writing so SHOT 5 is tight. Improvising a list on camera never works.
- Pick a quiet location with a plain background. This one is about words, and a busy background fights them.

GEAR & SETUP

- Osmo Pocket 3, 9:16, 4K/30
- Wireless mic on Nev — he carries this entire video
- Small tripod, essential: three of the seven shots are locked
- A clean phone screen with the article open, brightness at maximum for the top-down shot
- Shoot indoors or in shade. This is a talking video and the light must not change mid-take

SHOT-BY-SHOT

SHOT 1 0:00 – 0:04 The mistake, named

MCU - to lens, plain background

FRAMING	MCU on Nev, plain wall behind, nothing else in frame. No car anywhere in this shot — a car here would make it look like an advert and people would scroll.
CAMERA MOVE	Static , lens at chin height, about 80cm out. Locked on the tripod, no drift.
ACTION	Nev names the common misunderstanding straight away, in the first breath.
EXPRESSION	Direct and slightly corrective, but not scolding. He is clearing something up, not telling anyone off.
DIALOGUE	NEV SAY IT YOUR WAY "Ramai orang dengar harga kereta naik 2026, terus fikir semua kereta naik. Bukan macam tu."
AUDIO	Music in on the first frame, low and simple. Nothing dramatic — the subject is dry, and big music on a money topic makes the whole thing feel untrustworthy.
ON-SCREEN TEXT	RAMAI SALAH FAHAM BENDA NI upper third, out by 0:04.
EDIT NOTE	Frame 1 of the video. No intro . Cut on the last syllable of "macam tu".

SHOT 2

0:04 — 0:16 The source, on screen

Top-down · phone showing the article

FRAMING

Top-down on the phone, screen filling most of the frame, headline readable. Nev's hand may steady the phone; nothing else in shot.

CAMERA MOVE

Top-down, locked on the tripod. Watch for your own reflection in the screen — move the light, do not tilt the phone.

ACTION

The screen is already on the headline when the shot starts. One slow scroll down, then stop.

EXPRESSION

No face in frame. The **tone** is "here is where I got this", plain and unglamorous. Showing the source is the whole point of the shot.

DIALOGUE

NEV **LOCKED**

"Ada laporan kata harga kereta baru boleh naik 10 sampai 30 peratus bila cara kira cukai berubah. Sumber dia Carlist.my."

NEV **LOCKED**

"Kami bantu dealer promote kereta ni."

AUDIO

Music **under**, low, so the source name is clearly audible. This line must be heard.

ON-SCREEN TEXT

SUMBER: Carlist.my lower third, held for the whole shot.

Non-negotiable.

EDIT NOTE

Do not speed up the scroll. Do not cut away while the source line is being said.

SHOT 3

0:16 — 0:30 What actually changed, in one sentence

FRAMING

MCU on Nev with room in the lower third for one simple graphic. One idea, one visual, nothing else.

CAMERA MOVE

Push in 12–15cm, ending as he finishes the sentence. Stop the push on the full stop.

ACTION

Nev explains the change in one plain sentence, no jargon, no acronyms he has not defined.

EXPRESSION

Patient teacher. Slower than his normal speech, because this is the sentence people will rewind.

DIALOGUE

NEV **SAY IT YOUR WAY**

"Yang berubah bukan cukai baru — yang berubah cara dorang kira nilai kereta sebelum cukai. Bila nilai tu naik, cukai naik, harga naik."

AUDIO

Music stays low and steady. No swell on the explanation — let the words be flat and clear.

ON-SCREEN TEXT

BUKAN CUKAI BARU — CARA KIRA BARU lower third, in on the word "cara".

EDIT NOTE

Hold two beats after he finishes so the sentence settles. This is the most rewind moment in the video.

SHOT 4

0:30 — 0:44 And here is what it does not mean

MS - walking toward a recond unit

FRAMING

MS, Nev walking toward a recond unit on a forecourt. The car enters frame only now — halfway through the video, after the lesson has been given.

CAMERA MOVE

Handheld follow, moving with him, gimbal steady. One continuous move, no cuts mid-walk.

ACTION

Nev walks over to a unit and puts the change in proportion. This is the expectation flip: it looked like it was building to a "buy now", and it turns into a caution.

EXPRESSION

Level and honest, deliberately **unexcited**. Any urgency in his voice here would read as pressure and undo the whole video.

DIALOGUE

NEV **SAY IT YOUR WAY**

"Ini bukan bermakna korang kena beli hari ni juga. Dan bukan bermakna semua kereta terpakai tiba-tiba jadi mahal."

NEV **SAY IT YOUR WAY**

"Maksud dia cuma satu: harga kereta baru dan harga recond makin rapat. Jadi banding betul-betul."

AUDIO

Music stays under, unchanged. **Do not lift it here** — a music rise on this beat would sound like a sales pitch, which is exactly what the flip is refusing to be.

ON-SCREEN TEXT

No text on this shot. The point is verbal and text would flatten it.

EDIT NOTE

Cut when he arrives at the car, not before. The arrival is the punctuation.

MS - three questions, stacked on screen

FRAMING

MS on Nev with the lower half of the frame reserved for three stacked text lines. Frame wider than the earlier talking shots so all three fit above the safe line.

CAMERA MOVE

Locked off on the tripod. Absolutely no movement — the text is doing the work and a moving frame makes stacked text unreadable.

ACTION

Nev counts the three questions on his fingers as each line appears.

EXPRESSION

Brisk and practical. This is the part people came for, so no dwelling.

DIALOGUE

NEV **SAY IT YOUR WAY**

Question 1: ask the dealer for the on-the-road price, not just the sticker.

NEV **SAY IT YOUR WAY**

Question 2: ask what the same model costs new right now, this month.

NEV **SAY IT YOUR WAY**

Question 3: ask what the monthly works out to on the loan he is quoting.

AUDIO

Add a small, dry tick on each line appearing. Music stays flat underneath.

ON-SCREEN TEXT

Three numbered lines appearing one at a time, stacked, all **above y=0.72**. They stay on screen together for the last three seconds.

EDIT NOTE

Each line lands on the word, not after it. Hold the full stack for three seconds at the end — that is the screenshot frame.

SHOT 6**0:58 — 1:06** Who we are, and who we are not

MCU - boundary line, to lens

FRAMING

MCU on Nev, to lens, plain background again to close the loop with SHOT 1.

CAMERA MOVE

Static, chest height, locked. No move.

ACTION

Nev says plainly what the page is and what it does not do.

EXPRESSION

Calm and matter-of-fact, no defensiveness. It is a statement, not a disclaimer.

DIALOGUE

NEV **SAY IT YOUR WAY**

"Kami bukan jual kereta. Kami bantu dealer partner promote, dan kami tolong korang tahu nak tanya apa."

AUDIO

Music unchanged, low. Nothing marks this beat — it should feel ordinary.

ON-SCREEN TEXT

KAMI BANTU DEALER PROMOTE lower third.

EDIT NOTE

Keep this short. If it runs over five seconds it starts sounding like an excuse.

SHOT 7

1:06 — 1:14 Save it, and the closing line

FRAMING

MCU, to lens, tightest frame in the video.

CAMERA MOVE

Push in 10cm across the shot, stopping on the closing line.

ACTION

Nev gives the save CTA and closes.

EXPRESSION

Warm and useful. He has just given something away for free and it should feel like that.

DIALOGUE

NEV **SAY IT YOUR WAY**

"Simpan video ni. Tiga soalan tu, tunjuk terus kat dealer masa korang pergi tengok."

NEV **LOCKED**"Tanya dulu, baru beli." **[PROPOSED]**

AUDIO

Music out clean on the last word. No tail.

ON-SCREEN TEXT

SIMPAN · TUNJUK KAT DEALER above the safe line, closing line under it.

EDIT NOTE

Cut to black on the last syllable. No end card.

CAPTION — READY TO PASTE

Harga kereta baru dijangka naik 2026 sebab cara kira cukai berubah — bukan sebab cukai baru. Ini apa maksudnya kalau korang tengah cari recond, dan 3 soalan korang patut tanya dealer. Sumber: Carlist.my · Kami bantu dealer partner kami promote, kami tak jual.

Korang dah dengar pasal benda ni? Apa yang korang faham?

WhatsApp +60 16-879 8757

WHY THIS VIDEO, THIS WEEK

- The excise-duty / OMV change is **the one genuinely new, verifiable market story** this week (Carlist.my, seen 24 Ogos 2026)
- It is the education slot doing what education should — explaining something the audience has half-heard, before someone else does
- The expectation flip refuses the obvious "beli sekarang sebelum naik" push, which is exactly the kind of urgency the page has banned
- No unit price appears at all, so there is nothing to go stale and nothing to get wrong

Lines that must land exactly.

- **"Kami bantu dealer promote kereta ni."** — once, SHOT 2
- **"Ada laporan kata... Sumber dia Carlist.my."** — said aloud AND on screen. Never "confirm naik"
- **"Kami bukan jual kereta."** — SHOT 6
- **No RM figure of any unit appears in this video.** Percentages from the source only
- **"Tanya dulu, baru beli."** **[PROPOSED — confirm with Gavril]**

Everything marked **SAY IT YOUR WAY** is intent, not wording — Nev paraphrases it in his own mouth. Reading it verbatim is what makes it sound stiff.

Export. Vertical 9:16, ~70s. Burned-in BM captions at $y=0.72$, and check the three stacked questions in SHOT 5 all sit above the safe line on a real phone before export. Clean master, native upload. Post Friday evening.

Live dari showroom dealer partner — bos dia yang jawab

Hook #8 Mid-action start

Twist Role reversal

CTA Connect

Style Behind the scenes / transparency

ROLE BOUNDARY. Nev is a **guest in someone else's showroom**. The dealer hosts, walks and answers. Every price question that comes in on the live goes to the dealer — Nev repeats the question, he does not answer it. Nev does not open bonnets, does not point out faults, does not say "kami ada" about any unit. If the dealer steps away, **pause the live** rather than fill the time yourself.

What this video has to do. Show that there is a real showroom, a real dealer and a real person behind the page. Saturday is when people actually go and look at cars, so this is the day the page should be standing next to one. Success is WhatsApp conversations started during or straight after the live.

BEFORE YOU SHOOT

- Book the dealer for a **fixed window** and tell him the exact start time. A live that starts late loses the audience that showed up.
- Announce it Friday in the Day 5 caption and again 30 minutes before, in Stories and on the page.
- Agree with him in advance: **he answers all price, grade and condition questions**. Nev routes and repeats.
- Agree which units are on the route and confirm none of them is sold or under deposit.
- Check the wifi or data **in the actual corner of the showroom you will be standing in**, not at the front door.
- Have someone watching comments on a second phone and feeding the good questions to Nev.
- Ask the dealer for permission to record and re-cut the live into a 45s highlight for Sunday.

GEAR & SETUP

- Osmo Pocket 3 handheld for the walking segments, plus a small tripod for the parked segments
- Wireless mic on the **dealer**, and a second on Nev. A showroom is loud and echoey
- Power bank and a charging cable, plugged in during the static segments
- Second phone for reading comments — never read comments off the camera device
- Late afternoon, 4–6pm on a Saturday. Do not go live when the showroom is empty and silent

SEGMENT-BY-SEGMENT (PLUS THE TWO CUT-DOWNS)

TEASER

60s · posted 2h before Mid-action teaser, cut from B-roll

FRAMING	MS of Nev and the dealer already walking into the showroom together, cars in the background. Starts mid-stride .
CAMERA MOVE	Handheld follow behind and beside them, gimbal on. Keep both men in frame for the whole walk.
ACTION	They walk in, the dealer gestures at the floor, they keep going. No greeting to camera, no "hi guys".
EXPRESSION	Both relaxed and mid-conversation. The viewer should feel they arrived a few seconds late.
DIALOGUE	NEV SAY IT YOUR WAY "Petang ni kami live dari sini. Bos dia yang jawab, bukan saya."
AUDIO	Music in on frame 1, mid-energy. Keep the real showroom ambience underneath — the room noise is the proof.
ON-SCREEN TEXT	LIVE 5PM · SABTU centred, big, held through the whole teaser.
EDIT NOTE	Cut it to 60s maximum and post two hours before. No countdown graphic — a time and a place is enough.

MS · two-shot, dealer introduced

FRAMING

MS two-shot on the showroom floor, cars visible behind. Dealer slightly favoured in frame from the very first minute.

CAMERA MOVE

Handheld, held still. Stand still while people are joining — a wandering camera in the first minute makes people leave.

ACTION

Nev greets, says who we are, introduces the dealer by name and business, then physically turns toward him.

EXPRESSION

Nev: welcoming but clearly not the expert here. Dealer: a little stiff at first, which is fine and human — give him a minute.

DIALOGUE

NEV **LOCKED**

"Kami bantu dealer promote kereta ni."

NEV **LOCKED**

"Ini bos [name] dari dealer partner kami. Dia yang jawab semua soalan harga dan kondisi."

AUDIO

No music on the live at all. Room sound only. Check both mics are live before you start talking, not after.

ON-SCREEN TEXT

Pinned live comment: **Dealer partner: [name]** and the WhatsApp number, pinned within the first minute.

EDIT NOTE

Nothing to cut live. **Do not start the walk until at least 20 people are watching** — hold the intro and repeat the dealer's name.

WS - dealer walks the car, Nev orbits

FRAMING

Wide enough for the whole car and the dealer beside it. **Nev is behind the camera and mostly out of frame** for this whole segment.

CAMERA MOVE

Half orbit, slow, around the front of the car and back. Move only while the dealer is moving; stop when he stops.

ACTION

The dealer walks the unit and shows what he wants to show. Nev asks short questions from behind the camera.

EXPRESSION

Dealer: warming up, in his element. He should be doing 80% of the talking by now.

DIALOGUE

DEALER **SAY IT YOUR WAY**

Model, year, mileage, grade, price and monthly, in his own words, off his own documents.

NEV **SAY IT YOUR WAY**

Short questions only. Never finish the dealer's sentence for him.

AUDIO

Room sound. If the showroom plays music, ask them to turn it down before you go live — you cannot fix it afterwards on a live.

ON-SCREEN TEXT

Re-pin the dealer name and WhatsApp comment every few minutes as new viewers arrive.

EDIT NOTE

Live, so nothing to cut — but **mark the timecode** of the best 45 seconds as it happens, for Sunday's highlight.

MS - Nev reads, dealer answers

FRAMING

MS two-shot, both men, Nev holding the second phone low and out of frame if possible.

CAMERA MOVE

Static on the tripod for this whole segment. People are reading and listening now, not watching movement.

ACTION

Nev reads a comment out loud, repeats it clearly, and turns to the dealer. The dealer answers. Repeat.

EXPRESSION

Nev: a presenter of other people's questions, nothing more.
Dealer: patient, specific, allowed to say "saya kena check dulu".

DIALOGUE

NEV **LOCKED**

"Soalan ni untuk bos, bukan untuk saya."

DEALER **SAY IT YOUR WAY**

Answers every price, grade and condition question himself.

AUDIO

Room sound only. Read comments loudly — live audio is thin and half the audience is on a phone speaker.

ON-SCREEN TEXT

Keep the pinned comment visible. Do not add on-screen graphics to a live.

EDIT NOTE

Skip any comment that names or accuses another shop. Do not read it, do not respond to it, do not joke about it. Move on.

FRAMING

MS two-shot, both men, closer than SEG 3. They should be standing together, not on opposite sides of the frame.

CAMERA MOVE

Static on the tripod. Stay put for the ending.

ACTION

Nev gives the WhatsApp CTA, says clearly that the viewing is with the dealer, thanks him, closes.

EXPRESSION

Both easy and finished. No hard sell in the last minute — it undoes an hour of goodwill.

DIALOGUE

NEV **SAY IT YOUR WAY**

"Kalau nak tengok mana-mana unit tadi, WhatsApp kami. Kami arrange korang jumpa bos dia terus."

NEV **LOCKED**

"Kami tak ambil bayaran kereta. Semua urusan dengan dealer."

NEV **LOCKED**

"Tanya dulu, baru beli." **[PROPOSED]**

AUDIO

Room sound. Say the WhatsApp number out loud slowly as well as pinning it.

ON-SCREEN TEXT

Pinned comment stays up until the live ends.

EDIT NOTE

End the live cleanly rather than trailing off. **Reply to every comment left on the replay within the hour.**

CUT**45s · posted Sunday morning** The highlight cut**FRAMING**

Whatever the live gave you, cropped to 9:16 and reframed so the dealer and the car are both readable. Crop tighter rather than leaving a wide, empty live frame.

CAMERA MOVE

Slow pan added in post across the wide live frame to give the static footage some life. Keep it gentle — a fast pan on soft live footage looks broken.

ACTION

Cut from the timecode you marked during SEG 2. One idea only: the single best thing the dealer said.

EXPRESSION

Pick the take where the dealer looks most himself, not the most polished one. The appeal of this cut is that it is not produced.

AUDIO

Add low music **under** the dealer, since the live had none and the recut needs some lift. Never over his voice.

ON-SCREEN TEXT

Burned-in BM captions throughout — live audio is the worst audio of the week and most people will watch it muted. Closing line at the end.

EDIT NOTE

Hard 45 seconds. If the live gave you nothing worth 45 seconds, **say so and skip this post** rather than padding it.

CAPTION — READY TO PASTE

Live petang ni dari showroom dealer partner kami — bos dia yang jawab semua soalan harga dan kondisi, bukan kami.

Kami cuma bawa kamera dan tanya apa korang tanya kat comment.

Dealer partner: [name]

Ada soalan korang nak kami tanya bos dia petang ni? Tulis kat bawah

WhatsApp +60 16-879 8757

WHY THIS VIDEO, THIS WEEK

- Saturday is when people actually go and look at cars — the page should be standing in a showroom that day
- Live puts a real face and a real floor behind the page, which is the fastest fix for a page with 4 comments in 28 days
- The dealer answering everything is the **role boundary made visible**, not just written down
- It produces two more assets for free: the teaser and Sunday's 45s highlight cut

Lines that must land exactly.

- **"Kami bantu dealer promote kereta ni."** — once, SEG 1
- **"Ini bos [name] dari dealer partner kami."** — SEG 1, and repeat the name as new viewers join
- **"Soalan ni untuk bos, bukan untuk saya."** — every price question, every time
- **"Kami tak ambil bayaran kereta. Semua urusan dengan dealer."** — SEG 4
- **"Tanya dulu, baru beli."** [PROPOSED — confirm with Gavril]

Everything marked **SAY IT YOUR WAY** is intent, not wording — Nev paraphrases it in his own mouth. Reading it verbatim is what makes it sound stiff.

Export. Live native to Facebook, landscape or vertical as the phone allows — do not fight it. Teaser and highlight cut both vertical 9:16 with burned-in BM captions. Save the live replay and keep the timecode notes.

Unit yang jumpa owner baru minggu ni — dan korang pilih minggu depan

Hook #7 Split screen

Twist Comparison flip

CTA Choose / Question

Style Social proof

ROLE BOUNDARY. The wording is "**unit dari dealer partner kami jumpa owner baru**" — never "terjual minggu ni" and never "kami jual". We did not sell anything; a dealer did. No buyer's face appears without written permission, and no plate, document or address is visible on any card.

What this video has to do. Close the week with proof that this page connects to something real, and open next week by letting the audience choose. The poll is the comment engine — a choice between two units is the lowest-effort comment we can ask for, and comments are the weakest number on the dashboard.

BEFORE YOU SHOOT

- Confirm with the dealer **how many units actually found owners** this week. If it is one, say one. Never round up and never guess.
- Written permission from any buyer whose face or car appears. If they say no, use a detail shot — keys, a handshake, the boot open — with no identifying features.
- Pick the two poll units with the dealer, and confirm **both are still available** for next week.
- Check every photo for plates, documents, addresses and other customers before it goes into the set.
- Pull last week's poll result and Thursday's Experiment numbers so they can be recorded in PLAYBOOK.md tonight.

GEAR & SETUP

- Phone or Osmo Pocket 3, stills, 4:5 crop
- Handover photos are usually taken by the dealer on the day — ask him for the originals, not a screenshot
- Same text template as Tuesday so the page has one visual language
- No music, no motion — this is a still post and every fact must survive with sound off
- Build it Saturday night so it goes out Sunday morning while people are still at home

CARD 1 Split Two units, one question

Split - unit A vs unit B, question in frame 1

FRAMING	Split card: unit A left, unit B right, both shot at the same distance and height so neither is flattered. The question sits between them.
CAMERA MOVE	Tripod, locked for both source photos, bonnet height, square on. Same lens distance for both — a wider shot of one unit quietly biases the poll.
ACTION	Still card. Both cars clean, wheels straight, doors shut.
EXPRESSION	Neutral and fair. The card should not hint at a favourite — a poll with an obvious winner gets no comments.
AUDIO	No audio — still post. The question must be answerable from the image alone, muted, in two seconds.
ON-SCREEN TEXT	A ATAU B? large, centred on the divider. Model and year under each car, same size on both sides.
EDIT NOTE	This is the card that appears in the feed, so the question must be readable at thumbnail size. Test it small before posting.

CARD 2

Proof Units that found new owners

Text + car · social proof card

FRAMING

One car photo with a clear text band across the upper third. Do not collage three cars — one image reads, three do not.

CAMERA MOVE

Tripod, locked, bonnet height, same setup as the Tuesday carousel so the two posts feel related.

ACTION

Still card. If the exact unit cannot be photographed again, use the dealer's original photo rather than a stand-in.

EXPRESSION

Quietly pleased, not triumphant. Overclaiming here is how a page loses trust it spent all week building.

AUDIO

No audio. The claim and its wording must survive with sound off, because this is the card most likely to be screenshotted out of context.

ON-SCREEN TEXT

[N] unit dari dealer partner kami jumpa owner baru minggu ni. The exact wording matters — **never "terjual"**.

EDIT NOTE

If the number is one, the card says one. A small honest number beats a vague big claim.

CARD 3

Human The handover, if we have permission

CU · keys or handshake, no faces

FRAMING

CU on the moment, not the people — keys changing hands, a handshake, the boot being loaded. **No faces unless written permission exists.**

CAMERA MOVE

Handheld, held still, close in. Shot on the day by whoever was there; do not restage it later.

ACTION

A real moment from a real handover. If nothing was photographed, **skip this card** rather than staging one.

EXPRESSION

Warm and small. The page's best-ever post was emotional and had no car in it — this card is the week's one small dose of that.

AUDIO

No audio. Still card in a still set.

ON-SCREEN TEXT

HARI DIA BAWA BALIK, small, low. Do not caption a person's emotion for them.

EDIT NOTE

Crop out plates, documents and anything with an address. Check the reflections in the paintwork before posting — faces show up there.

CARD 4

Poll The choice, spelled out

Poll card · A vs B, one ask

FRAMING

Two labelled panels, A and B, with the model and one distinguishing fact under each. Nothing else on the card.

CAMERA MOVE

No camera — built card using the same 4:5 canvas and margins as the photo cards so the swipe does not jump.

ACTION

Nothing moves. Built in the template and exported flat.

EXPRESSION

Even-handed and light. This is a small friendly question, not a survey.

AUDIO

No audio. The whole ask is visual and must work muted.

ON-SCREEN TEXT

COMMENT A ATAU B centred. Under it: **Yang menang, kami tunjuk penuh minggu depan.**

EDIT NOTE

One ask on this card and nothing else. **Do not put the WhatsApp number here** — two asks on one card gets you neither.

CARD 5

CTA Route to the dealer, and close the week

Text card · WhatsApp + closing line

FRAMING

Text-only card, dark background, big type, generous margins.

CAMERA MOVE

No camera — built card. Same canvas and margins as every other card in the set.

ACTION

Nothing moves. Final card of the week.

EXPRESSION

Calm and closed. The week ends on an offer to help, not a push.

AUDIO

No audio.

ON-SCREEN TEXT

WhatsApp +60 16-879 8757 large. **Semua viewing dengan dealer.** under it. **"Tanya dulu, baru beli."** at the bottom.

EDIT NOTE

Keep the number big enough to screenshot. Nothing else competes with it on this card.

CAPTION — READY TO PASTE

[N] unit dari dealer partner kami jumpa owner baru minggu ni. Kami tak jual kereta — kami cuma bantu dealer promote dan bawa korang jumpa dia. Minggu depan kami tunjuk satu unit penuh. Korang

WHY THIS VIDEO, THIS WEEK

- Sunday social proof plus a poll is the page's fixed close, and the poll is the cheapest comment ask in the week

yang pilih.

Dealer partner: [name]

A atau B? Comment satu huruf je

WhatsApp +60 16-879 8757

- Comments are the weakest KPI on the dashboard (4 in 28 days against a target of 40) — this card and Thursday's question are the two biggest levers on it
- The comparison flip means the "obvious" unit should not be obvious — a lopsided poll gets no comments
- The poll result becomes the input for next Wednesday's feature video, so the week feeds itself

Lines that must land exactly.

- "[N] unit dari dealer partner kami jumpa owner baru minggu ni" — never "terjual", never "kami jual"
- "Semua viewing dengan dealer." — card 5
- Dealer partner: [name] in the caption
- No buyer face without written permission. No plates, no documents, no addresses
- "Tanya dulu, baru beli." [PROPOSED — confirm with Gavril]

Everything marked **SAY IT YOUR WAY** is intent, not wording — Nev paraphrases it in his own mouth. Reading it verbatim is what makes it sound stiff.

Export. Carousel 4:5. Post Sunday morning. **Record the poll result and Thursday's Experiment numbers in PLAYBOOK.md tonight** — they are the input for next Monday's automated run, and an experiment nobody scores is just a random video.

New patterns learned this week

1. **NEW Policy-change explainer as a content window.** A dated rule change is a content window: for a few weeks, everyone has half-heard it and nobody has explained it plainly. Explaining it before the rumour version spreads buys authority cheaply. Example: the excise-duty / OMV change written up in plain Malay by Carlist.my, read 24 Ogos 2026. **How Nev uses it:** Friday's video — state the change in one sentence, say what it does *not* mean, hand over three questions to ask a dealer, and credit the source on screen. **Judgement** on whether it performs; the source itself is verified.
2. **NEW Ride the season, never the countdown.** Merdeka campaigns are everywhere right now and the ones from serious sellers use a **named season and a real date** (Hap Seng Star "Merdeka Salebration", from RM138,000, 20 Ogos; Volvo's dated 48-hour window including KK, 5 Ogos). None of them needed "last unit". **How Nev uses it:** Monday posts on Merdeka day itself and Tuesday's card 1 carries the real date — the page gets the seasonal lift without breaking the no-fake-scarcity rule.
3. **Judgement Street vox-pop, ported from comedy and lifestyle.** Stopping real people and asking one repeated question is a comedy and lifestyle staple, not a car format — which is exactly why it is this week's Experiment. No example from this week, because the scan did not run; the reasoning is that the page's best-ever post was

emotional, Malay and had **no car in it** (1,000 views on 584 followers). **How Nev uses it:** Thursday. **Score it next week** — views, comments and whether any answer was worth building a video around.

Steal / adapt

WHO	WHAT THEY DO	PROOF	TAKE FOR NEV
Carlist.my	Turns a tax and policy change into plain-language buyer advice, in Malay, with worked examples	Insights article on the 2026 excise-duty change · read 24 Ogos 2026	Friday's education video — same explanation, Sabah buyer's angle, source credited on screen and out loud
Hap Seng Star (Mercedes-Benz CPO)	Season-branded pre-owned campaign with the price floor stated up front	"Merdeka Salebration", from RM138,000 · Carlist.my, 20 Ogos 2026	Merdeka Monday leads with the dealer's price on frame 1 — the season, never a countdown
Volvo Car Malaysia	A short, dated promo window rather than open-ended urgency, with a KK dealership included	48-hour Merdeka deal, 15–16 Ogos · yskhongdriving.com, 5 Ogos 2026	Tuesday's Stock Drop card 1 carries a real date — a date beats fake scarcity and stays legal
G-Mart Group	Stock posted as a poster: price and warranty burned into frame 1, no walkaround	18.2K likes — highest in the last verified TikTok scan, 19 Ogos 2026	Tuesday card 1 stays a poster. Unchanged from last week because it worked
Auntie Nora Primewheels	Plain speech to camera; recond-vs-baru comparisons and Top-5 listicles	4,505 likes · TikTok, last verified 19 Ogos 2026	Banked, not used this week — the comparison slot is the one the Experiment displaced
OSIN MOTOR (Kota Kinabalu)	Sabah-local recond dealer running its own page — the nearest thing to a direct local comparison	facebook.com/osinmotor · found via web search 24 Ogos 2026, not scraped, no counts	judgement New local account to watch. Verify properly next week when the scan is back

Pinned post

The **Stock Drop carousel** gets pinned every Tuesday. Card 1 must show the week's date — **STOCK DROP · 1 SEPT 2026** — so anyone landing on the page sees it is active. Unpin last week's before pinning this one. The header slot should never be empty and never show stale stock. If a unit sells mid-week, edit the caption rather than leaving it live.

KPI check — Professional Dashboard, every Monday

METRIC	BASELINE (21 JUL – 17 OGOS)	TARGET
3-sec views ÷ Views	~14%	≥ 25%
Comments / 28 days	4	≥ 40
WhatsApp / Messenger convos	2	≥ 15
Net follows	–15	Positive
Watch time	7j 58m	≥ 12j

Standing footer. Reply to every comment within 1 hour, as the Page · Nev ends every video with the same closing line — "Tanya dulu, baru beli." [PROPOSED — confirm with Gavril] · the identity line — "Kami bantu dealer promote kereta ni." — is said **once** per video, never twice, never expanded · every CTA routes to a viewing **with the dealer**; Talyx never takes payment for a car · prices on screen are real and current, monthly figures always labelled **anggaran** · no unit featured after it is sold · **record Thursday's Experiment result and Sunday's poll in PLAYBOOK.md before next Monday's run.**
